

Summerpalooza '21

Summer Fun for Every Scholar!

Summerpalooza '21 is your home for support, professional development, and all the tools you need to make this your most productive professional summer yet!

Free Programs

Summer Academic Working Groups

Small groups of academics (4-6) circulate documents through the summer on a biweekly basis for accountability, and go through one feedback cycle of the group's design toward the later part of the term.

Writing Your Journal Article in Twelve Weeks Groups

This new program involves small groups of authors working together to revise a piece for publication following the steps in Wendy Belcher's *Writing Your Journal Article in Twelve Weeks* (2e). Collaboration and support matter here; document exchanges are in weeks 5 and 12.

Learn Stats and R with Friends! Group

This new offering leverages an 8-week MOOC for participants to learn the basics of both statistics and R. No experience with either required! Group operates via a Slack channel for communication and questions, and group-scheduled problem set work times. Estimate 2 hrs/week.

More Summer Programs

Coaching for faculty and graduate students, \$10 workshops, and much, much more! See the website below to explore or register!
